CoC Rating and Review Procedure

Process for Reviewing, Scoring, and Ranking

The FY2017 CoC Program NOFA instructed Continuums to rank projects into two (2) tiers: Tier 1 is equal to 94 percent of the Annual Renewal Demand (ARD) and Tier 2 is equal to the difference between Tier 1 and the ARD plus the amount available for permanent housing bonus projects. At the national level, HUD will conditionally select projects in Tier 1 from the highest scoring CoC to the lowest scoring CoC, provided that project applications pass both eligibility and threshold review. HUD will award projects in Tier 2 based on points received using a 100 point scale; points are awarded based upon the CoC Application score, CoC project ranking, project type, and commitment to policy priorities.

To rate and rank projects locally, the Review Committee utilized the Rating and Ranking Tool that was developed by HUD. The Review Committee used HMIS data, Annual Performance Reports (APRs) and other records to gather the necessary information to properly consider each project. Project applicants were required to submit an Application, by the established deadline. This method of project evaluation was reviewed and approved by the CoC Board.

The Review Committee, an independent body, was responsible for reviewing the Applications and HMIS data reports for scoring projects. The Committee met to review and score all renewal, reallocated and new projects, including new projects, on August 29th, August 31st September 5, 2017.

The Review Committee scored projects and forwarded to El Paso CoC Board.
